

Personality + Career

Students in SCC's Healthcare Management program are leaders in their clinical field and have a desire to advance their career. They are team players, are committed to helping others and organizations advance, and can make decisions.

Program	What do students learn in the program?	What you'll earn!	Career Opportunities	Certificate Preparation	Required Tools, Supplies, and Uniforms
Healthcare Management	The Healthcare Management program provides students with the skills and knowledge needed to advance their career in a variety of healthcare settings. Learn how to build teams, supervise effectively, and understand planning and decision-making processes. The program prepares entry-level leaders in the areas of human resources, finance and information management, strategic planning, quality growth and control. Students will also benefit from a healthcare management practicum. The program builds on a student's prior degree or healthcare profession like Medical Assisting, Pharmacy Technician, Practical Nursing, and Other Healthcare Professions.	The median advertised salary for positions within the Southeast Nebraska area is \$30.28/hour. (Source: EMSI Q1 2022 Data Set for Medical & Health Services Manager)	-Medical Office Manager -Dental Office Manager -Shift Supervisor -Department Supervisor	Dependent on courses completed.	See program director for more information.

Healthcare Management

Healthcare management professionals oversee the day-to-day operations of healthcare facilities. SCC's Healthcare Management program equips healthcare professionals with the skills and education to advance their careers to leadership positions.

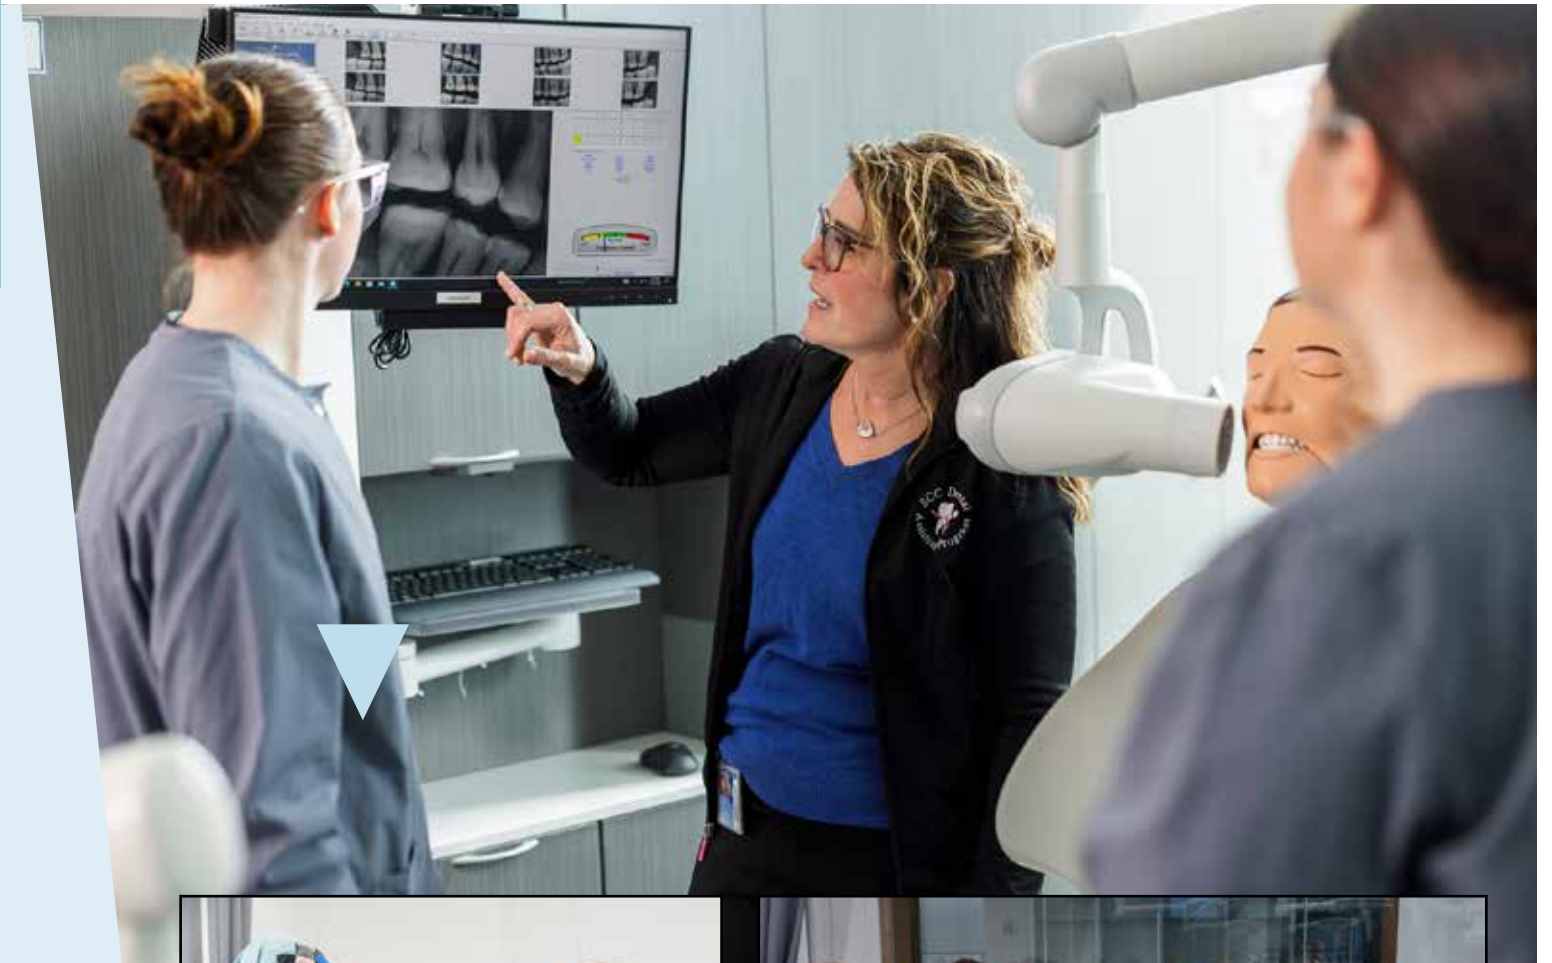

Students will apply their clinical healthcare experience to specific management courses helping them to develop team-building, strategic planning, decision making, and quality control skills. The intentional curriculum prepares students for tomorrow's leadership opportunities across a variety of healthcare settings.

The SCC Experience

- » Advance your healthcare career with SCC's Healthcare Management program. SCC's program will help you build on your clinical skills by adding management, leadership, finance, and human resource courses to make you a well-rounded healthcare leader.
- » This program is ideal for individuals who have or are working towards a healthcare professional license or certification.
- » The program offers flexibility! Many Healthcare Management courses are offered online, allowing you to work while you learn.
- » A required practicum course will give you the opportunity to put your leadership and management skills to work in a real setting. This experience will give you first-hand experience to market to employers! Students can work with their current employer or SCC will help identify a practicum site.
- » The Healthcare Management program has four pathways that easily connect to healthcare professions. Apply for Credit for Prior Learning from professions such as Medical Assisting, Pharmacy Technician, or Practical Nursing degree. Or chart your own path with other healthcare professional pathways.
