# The SCC Experience

- » Advance your career with a degree in Operations & Service Management. This program was specifically designed to help professionals with 3-5 years of industry experience to add specific management skills. The combination of core courses will help give you a strong foundation in business skills to compliment your industry experience.
- » The program's courses are flexible to meet your needs! The program's core Business courses are available in a variety of ways, including online. If you're working full-time, you'll be able to complete the required Business courses fully online – in a full time or part time capacity!
- » You'll work closely with an advisor to set your class schedule and program plan. SCC's advisors will help you stay on track to meet your goals and are available to provide assistance to you as you progress through your program.
- » If you've already earned a technical degree, the Operations & Service Management degree easily pairs with those credits. It's a great way to add to your skill set!
