

Personality + Career

Students in SCC's Psychology program have a general curiosity about the human brain and have an interest in helping people in a variety of settings. You enjoy using scientific method and theory to analyze human behavior. Many psychology students transfer to bachelor degree programs at four-year colleges or universities.

Program	What do students learn in the program?	What you'll earn!	Career Opportunities	Certificate Preparation	Required Tools, Supplies, and Uniforms
Psychology	In this program we will explore mental processes, social influences, the development process and how each of these areas influence humans and our behavior. During the pursuit of this degree students will utilize the scientific method, to explore humanity, doing so with a theoretical focus. Psychology is a vast field with many possible focus areas which allow students to work with, and explore, human behavior from a vast number of viewpoints.	Salary is not reported for programs intended to transfer to four-year schools.	The AA in Psychology curriculum is designed for flexibility and broad applicability to four-year transfer institutions. Since Baccalaureate degree requirements vary from institution to institution, the course options within each category are intended to provide a broad base of psychology and general education courses that fulfill many requirements at various colleges and universities in our region. Psychology

If you are curious about the who, what, why and how of human behavior, our Psychology program is the perfect fit for you.

An Associate of Arts degree in psychology gives you the opportunity to explore human behavior from a variety of viewpoints including mental processes, social influences and the development process. You will utilize the scientific method using a theoretical focus to study human behavior.

Our psychology degree prepares you to transfer to a four-year college or university to continue your education in psychology or a related field. You will gain a broad base exposure to psychology while also completing general education courses.

The SCC Experience

- » Psychology is a vast field with several possible focus areas. At SCC, you will have the opportunity to work with and explore human behavior from a variety of viewpoints.
- » We prepare you to transfer to a four-year college or university after graduating with an AA in Psychology if that is part of your academic goal.
- » You will have opportunities early on in your degree pathway to explore the field in more in-depth ways by joining the Psychology/Sociology Club. This club will help you meet like-minded peers and foster connections with faculty beyond the classroom.
- » Our psychology students have the chance to pursue internships in a psychology related field and receive college credit. You are also able to participate in several opportunities to grow your research and presentation skills.
- » Students can also participate in Study Abroad experiences with a psychology focus as well as service learning opportunities.
