COMMUNITY COLLEGE

2023 | 2024

Your Path to Possible

it's good
to be **HOME**

Y CHOOSE U

Your Path to Possible

In a world full of choices *and* possibilities, there's one decision that stands above the rest—the decision to Choose You. At SCC we celebrate individuality, dreams and the pursuit of a brighter future. Your journey at SCC will be one of self-discovery and personal and professional growth. We believe the choices you make now will shape your future. We are dedicated to supporting you every step of the way!

From cutting-edge facilities and committed instructors to diverse clubs and organizations, SCC is a place where your passions come alive. Embrace a personalized college experience where you choose your path and your possibilities. Now is the time to **Choose You**.

► **Discover more at southeast.edu**

*"SCC has a long history of ensuring that employers have access to qualified graduates who have the skills needed for successful and productive employment. SCC continually seeks to align our programs with the specific needs and requirements of employers and transfer institutions. **We are committed** to meeting the educational needs of our students, employers and the community."*

— Paul Illich | President, Southeast Community College

Choices Are Good

At SCC, you have choices! One of the benefits of selecting SCC is the tremendous flexibility you have in determining your academic and career path.

We offer options on what you learn, when you study and where or how you attend classes.

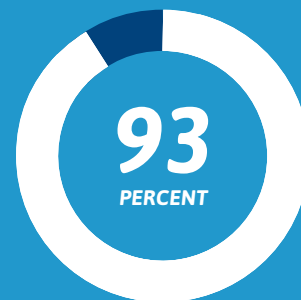

- **A wide array of academic programs allow you to have options to study anything from agriculture to culinary arts or healthcare to auto repair.** We are preparing you today for tomorrow's jobs by teaching the specific skills employers want.
- **Jumpstart your path to a 4-year degree.** SCC's Academic Transfer program offers general education credit or specific courses that transfer to a four-year institution.
- **Our education fits into your life, not the other way around.** Receiving a college education shouldn't mean having to put your life on hold. At SCC, your advisor will help you develop a clear roadmap of what classes to take, show when they are available and explain why they add value.
- **Location doesn't limit your learning.** We offer classes on our Beatrice, Lincoln, Milford campuses and online. You can also attend select campus classes remotely from our learning centers in Falls City, Hebron, Nebraska City, Plattsmouth, Wahoo and York.

Meadow Hall, Milford Campus

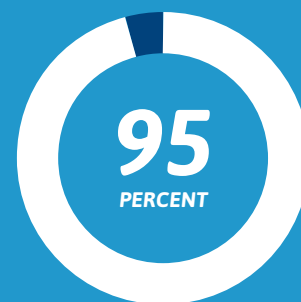

Graduate & Prosper

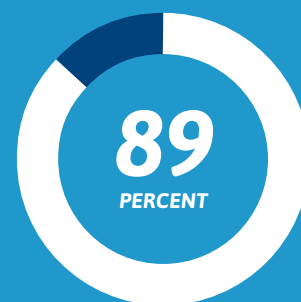

We equip our students to create an immediate and meaningful impact in their chosen life's work, exemplified by our Class of 2022.

Working in Nebraska

Data from 2022 Graduate Report, produced by SCC Office of Institutional Research.

Accessible & Affordable

Our goal is helping you find your path to possible. We are committed to providing opportunities through academic transfer programs, degree options and career training.

- We offer more than **60 programs** in nine different career paths, providing many ways for you to realize your potential and earn a living.
- High school students living in our 15-county service area can take advantage of a **50% discount** on Career Academy, dual-credit and Southeast Nebraska Career Academy Partnership (SENCAP) classes.
- SCC awarded more than **\$4.7 million in scholarships** last year, in addition to federal and state financial aid, to help make a college education possible for thousands of students.
- You're never just a number here. Our **11:1 student-to-faculty ratio** gives you access to, and the attention of, faculty who care about preparing you for your future.

2023–2024 Tuition & Fees

Support & Advising

At SCC, we prioritize your success by providing a dedicated team of professionals who are here to support you every step of the way. Whether you need assistance selecting classes, guidance for your career path, or someone to listen, we are here to support you throughout your SCC journey.

Career Services

We are dedicated to your success from the moment you step foot on campus until the day you complete your goals. Our team of Career Services Specialists are here to support you every step of the way. Across all three campuses, our Career Services Offices provide valuable insights into various career fields and job opportunities. They also assist you in finding part-time employment that aligns with your studies at SCC. As a student or graduate, you have exclusive access to the SCC JobConnect portal, which allows you to easily apply for a wide range of jobs, internships and cooperative experience opportunities.

Academic Advising

Every SCC student is assigned **two advisors** to support them throughout their entire time at SCC. This offers enrolled students a high level of support along the journey to their career. One advisor is a **College Advisor** and the other is a **Program Advisor**. Each provides insight and guidance to ensure you get the most out of your SCC experience. They form a dynamic support system that ensures you have access to knowledge and resources. They are dedicated to helping you make informed decisions, overcome challenges and seize opportunities that align with your academic and career goals.

Learning Centers

Learning Centers are geographically distributed across our service area to reach every individual living within a 35-mile radius of any SCC location. Each location offers ACCUPLACER testing, a computer lab and classroom(s), offering credit and non-credit courses, as well as business and industry training.

Sandhills Global Technology Center

Lincoln | 2024

- The new **Sandhills Global Technology Center**
- will provide specialized labs, room for program
- growth and innovative technologies. The new
- facility will also include space for flexible training
- options to meet Nebraska's workforce needs.

- Renovating **Nebraska Hall** will allow SCC to
- repurpose this iconic historic building into a
- centralized student hub. New features will create
- student belonging and aid in success through
- spaces for studying, support and enrichment.

Nebraska Hall

Milford | 2024

Agriculture Career Center

Beatrice | 2025

This facility combines all of SCC's agriculture programs, offering students a greenhouse, animal handling spaces, precision agriculture labs and an arena that serves as home to the SCC rodeo team.

Exciting Progress. Empowering People.

"The new and renovated facilities represent SCC's continuous transformative journey to expand our capacity to produce a skilled workforce and to ensure everyone has affordable access to the life-changing benefits of higher education and fulfill our mission, vision, strategic goals and objectives."

Handwritten signature of Paul Illich in black ink.

Paul Illich | President, Southeast Community College

Welding Technology Center

Lincoln | 2025

The **Welding Technology Center** will include more than 80,000-square feet of modern learning and training spaces—two labs with 180 welding bays, a testing lab, a fabrication lab and seven interactive classrooms.

Health & Safety

At SCC, our goal is to promote a safe and welcoming environment that recognizes and respects diversity and improves the quality of campus life for students, faculty and staff.

Campus Security

Each SCC campus offers multiple resources to support the safety and security of our students. Campus residential buildings require student key card access and all campuses are monitored with security cameras and public safety officers. SCC offers an emergency messaging service to inform you of any emergencies on campus. Additionally, trusted escorts are available if you are concerned about walking to your vehicle.

Mental Health Resources

At SCC, we understand college life and life, in general, can present challenges. We are committed to providing comprehensive mental health support to all our students through the Counseling Assistance Program for Students (CAPS). Through CAPS, SCC students have access to free counseling services and support groups. We believe in creating an environment where students can thrive on their journey to success by prioritizing their mental well-being.

New Student and Academic Support Center, Lincoln Campus

BEATRICE

Beatrice Campus

SCC's Beatrice Campus offers a vibrant campus life experience with specific academic programs, comfortable residence halls, exciting athletics and inviting spaces that create a sense of belonging. Discover what Beatrice has to offer and schedule a campus visit today.

The Kennedy Center is an inviting student-friendly hub, offering easy access to student services and the business office, as well as new study spaces and lounges. The addition of the new dining hall delivers multiple food choices to the campus community. The Academic Excellence Center and renovated Agriculture Hall further enrich the campus by providing educational enhancements and larger dedicated learning spaces. Students can enjoy a convenient and welcoming environment that caters to their needs while benefiting from valuable resources and specialized facilities to support their academic journey.

SOUTHEAST COMMUNITY COLLEGE BOBCATS

#BEABOBCAT

At SCC our student-athletes enjoy success on and off the field with direction from experienced coaches and dedicated instructors. SCC student-athletes enjoy a quality education while continuing to pursue their athletic passions. Many of our Bobcats have transferred to and continued their playing careers at the NCAA and NAIA levels. SCC competes at the National Junior College Athletic Association (NJCAA) Division I and II levels and the National Intercollegiate Rodeo Association (NIRA).

Bobcats are representative of the region and known for their speed, agility and stealthiness. They are hunters who can adapt to changing environments, representing the SCC culture and its adaptability. Bobcats also show great determination and resilience, like the students, programs and athletic teams at SCC.

Arts & Sciences

Start here. Succeed anywhere.

Biotechnology

Lincoln

Online + Lab Courses | 1-4 Terms | A.S., DI, CE

Program Description:

If you love science, have an inquisitive mind and a desire to solve biological problems, this program is perfect for you! We are the only college in Nebraska offering this unique program. You will learn the basics and graduate prepared for an advanced career in academic, government and industry laboratories. If an advanced degree in a STEM field is your goal, our program will prepare you for that, too.

Our program offers a hands-on learning experience that culminates in an industry practicum, where you will directly apply the skills learned in a real-world business environment as a productive team member.

Graduate Careers:

- Cell Culture Technician
- Laboratory Assistant
- Research Assistant
- Animal Laboratory Assistant

Global Studies

Beatrice & Lincoln

1 Term | CE

Program Description:

The Global Studies certificate contains a wide variety of courses that provide students with the strong global foundation necessary for a future in a variety of academic and professional pursuits at home and abroad. This includes career paths that would benefit from an increase in emotional intelligence and cultural appreciation. This is ideal for students who want to enter the local workforce with the language and critical thinking skills necessary to become leaders and engaged in their communities and abroad. This would also be ideal for students who have an existing Bachelor's or Master's level degree but would like to add a global perspective to their resume to make them a more competitive candidate in a diverse and international workforce.

Psychology

Beatrice, Lincoln & Milford

Online Available | 4 Terms | A.A.

Program Description:

The Associate of Arts degree in Psychology is intended for students seeking to complete their first two years of a bachelor's degree before transferring to a four-year institution to major in Psychology or a related field. Students declared in the Psychology AA program will find opportunities for engagement and connection to their chosen profession early in their academic careers. SCC also offers a strong and active Psychology/Sociology Student Organization that will support students within the program with expanded co-curricular opportunities.

Computer Information Technology

Lincoln

1 Term | CE

Program Description:

If you are a tech savvy problem solver, our Computer Information Technology program is the ideal fit for you. Our flexible CIT program provides hands-on training while allowing you to be a full-time or part-time student taking day, evening and online classes. Once you complete the program, you will be prepared to work in every sector of the economy.

Computer Information Technology Applications Development

Lincoln

2-4 Terms | A.A.S., DI

Program Description:

Our Applications Development degree trains students to design and code software applications on different computer platforms (PC, web, mobile). Students experience hands-on training in Java, C#.NET, HTML/CSS, JavaScript, SQL, ASP, JSP. Graduates code PC applications, program behind the scenes of web sites, create mobile apps or develop enterprise-wide software solutions commonly used in business and industry.

Graduate Careers:

- Application Developer
- Instructor
- IT Applications Developer
- IT Database Analyst
- Programmer
- Software Developer

Computer Information Technology Computer Support

Lincoln

2-4 Terms | A.A.S., DI

Program Description:

Our Computer Support program trains students for technical support and help desk positions. Courses include advanced applications, customer support skills, hardware maintenance and hardware and software troubleshooting simulations. Graduates from this focus may work as the main computer resource technician in a company or may work as a member of a team providing help desk support.

Graduate Careers:

- Desktop Support Technician
- Instructor
- IT Infrastructure Support Technician
- IT Technician

Computer Information Technology Cyber Security

Lincoln

4 Terms | A.A.S.

Program Description:

Our Cybersecurity degree trains students to meet the growing need for security professionals in IT. Students learn security systems and operations, cyber defense techniques and digital forensics related to the protection of today's networks and critical information systems. Graduates perform a variety of tasks related to the protection of today's networks and critical information systems.

Graduate Careers:

- Cybersecurity Analyst
- Instructor
- Security Technician

Computer Information Technology Network Manager

Lincoln

2-4 Terms | A.A.S., DI

Program Description:

Our Network Management degree trains students to set up, maintain and manage computer networks. Courses in networking deal with basic data communications, PowerShell, Cisco networking, Windows Server, Linux Server and virtual machine management. Graduates will provide network support under the supervision of a network administrator.

Graduate Careers:

- Network Manager
- Network Operations Engineer
- Network Technician
- Instructor

Computer Technology

Computer-savvy students, look no further.
Start your career in IT, GIS or graphic design here.

Geographic Information Systems Technician

Online

100% Online | 1-4 Terms | A.A.S., DI, CE

Program Description:

Geographic Information Systems (GIS) careers are available in almost every field and are often found in government agencies, businesses, schools and private organizations. GIS technicians produce, read and use maps to manage communities and industries. They work with digital land data, manage databases and design and prepare data using GIS hardware and software applications.

Graduate Careers:

- Cartographic Technician
- GIS Analyst and Contractor
- GIS Manager
- GIS Specialist
- GIS Support Analyst
- Network Designer

Graphic Design & Media Arts

Lincoln - Education Square

4 Terms + 1 Summer Term | A.A.S.

Program Description:

If you have an artistic mind and enjoy solving problems, this is the program for you. Graphic design uses fonts and images to convey a message to a specific audience, and graphic designers create visuals that inform the viewer and influence their behavior. There are many fields for graphic design jobs, including advertising, marketing, print and interactive design.

Graduate Careers:

- Front-End Web Developer
- Graphic Designer
- HTML Project Associate
- Interactive Designer

Agricultural Management & Production

Beatrice

4 Terms | A.A.S.

Program Description:

If you want a career in agriculture, check out our hands-on program! Our agriculture center has amazing resources where you can get real experience applying what you learn in the classroom. You will gain technical skills and knowledge in agriculture business, land use, crop farming, animal care and food science. You'll be able to personalize your degree with a focus that reflects your interests.

Agribusiness arms you with the skills for a career in the processing, distribution and support of farm-related products. If crops and soils are your interest, choose Agronomy. Diversified Agriculture will give you a well-rounded education with classes in several areas, preparing you to manage many related businesses.

Focus Areas:

- Agribusiness
- Agronomy
- Diversified Agriculture

Graduate Careers:

- Agronomist
- Assistant Cattle Manager
- Crop Consultant
- Elevator Operator
- Farm/Ranch Assistant
- Farm/Ranch Manager
- Farmer/Rancher
- Feed Mill Operator
- Herdsman
- Herdsman/Farrowing Technician
- Mill Department Worker
- Program Technician
- Sales Agronomist
- Sales & Marketing

Horticulture & Turfgrass Management

Beatrice

4 Terms | A.A.S.

Program Description:

The Horticulture and Turfgrass Management program prepares you for a host of career opportunities, from landscape design and construction to greenhouse management to athletic field and golf course maintenance. Combine classroom theory with hands-on experience around the Beatrice Campus, including two golf course holes, and pursue a cooperative experience at a golf course, landscape company, greenhouse and more. This degree will teach you the expertise behind landscape design and construction, greenhouses and nurseries, as well as maintaining turfgrass areas on golf courses, athletic fields and other commercial and non-commercial turf areas.

Our students are technically trained future leaders in the industry who have found great success after graduation.

Focus Areas:

- Golf & Sports Turf Management
- Horticulture

Graduate Careers:

- Assistant Superintendent
- Golf Course Assistant
- Golf Course Spray Tech
- Golf Course Irrigation Tech
- Sports Field Manager
- Landscape Construction
- Landscape Installation
- Landscape Maintenance
- Landscape Sales
- Florist
- Fertilizer Technician
- Greenhouse Grower
- Groundskeeper
- Equipment Salesperson
- Research Technician
- Commercial Pesticide Applicator

Livestock Management & Production

Beatrice

4 Terms | A.A.S.

Program Description:

Livestock managers are responsible for running the business of livestock on farms or ranches. They must keep accurate financial records, supervise workers and ensure proper care of animals. They make sure that the goods from animals are produced safely, efficiently and profitably by monitoring what the livestock is fed, keeping the animals healthy and ensuring overall cleanliness of animals and facilities.

Graduate Careers:

- Livestock Genetics Salesperson
- Swine Production Technician
- Feedlot Technician
- Animal Health Sales
- Veterinary Assistant
- Artificial Insemination Technician
- Research Technician
- Conservationist

Agriculture

Learn how to make a living in the field and beyond exclusively at our Beatrice Campus.

Precision Agriculture

Beatrice

2 Terms | CE

Program Description:

With this certificate, you can install, set up, operate, analyze and troubleshoot the systems needed to help feed the world. Precision agriculture is site-specific farming that lowers input costs and maximizes yield potential through the use of data: GPS guidance, drones, variable rate application, GPS-based soil testing, satellite imagery, crop health analysis, yield monitoring and prescription-based applications. According to Global Market Insights, precision-farming technologies are projected to become a \$10 billion industry by 2024. Our students get to learn using the real technologies in this field, as well as a basic understanding of hydraulic and electronic systems applied in these practices.

Graduate Careers:

- Ag Aviation Ground Crew
- Bulldozer Operator
- Crop Consultant
- Custom Applicator
- Farm Assistant Manager
- Farm Hand
- Research Technician

Building Construction Technology

Milford

1-4 Terms | A.A.S., CE

Program Description:

This program gives you the foundation for any career in the building construction industry. After learning and practicing building skills, you'll finish your studies by using everything you've learned to build an actual home with fellow students, right on the Milford Campus. You can join our award-winning National Association of Home Builders student chapter and the Associated General Contractors student chapter.

Awards Offered:

- Carpentry & Cabinet Making Construction (CE)
- Construction Process (CE)
- Residential Design & Estimating (CE)
- Commercial Design & Estimating (CE)

Graduate Careers:

- Carpenter
- Construction Laborer
- Construction Owner
- Construction Technician
- Skilled Laborer
- Facilities Management
- Framer

Concrete Construction Technician

Milford

1-4 Terms | A.A.S., DI, CE

Program Description:

Our hands-on Concrete Construction Technician program provides comprehensive training in the concrete construction field. You will study everything from project site preparation and safety, concrete forming, placing and finishing operations for vertical and horizontal concrete construction, as well as mix design and trouble shooting. You will also gain drafting and estimating skills.

Graduate Careers:

- Concrete/masonry specialist

Design & Drafting Technology

Lincoln

1-4 Terms | A.A.S., CE

Program Description:

Architectural design is the creation of construction documents for residential and commercial structures through the use of building information modeling (BIM) designs. Computer-aided design and drafting (CADD) is communication through the use of graphic representation and creation of 3D designs. Our program combines drafting and design to give students several options in their careers.

Awards Offered:

- Architectural Design (A.A.S)
- Computer Aided Design & Drafting (CADD)
- Designing Software (CE)
- Residential Design (CE)
- Intro to Design Software (CE)

Graduate Careers:

- Assistant CADD Technician
- CAD Designer
- Drafter
- Drafting Technician
- Designer
- Electrical BIM Technician
- Electrical Designer
- Electrical Drafter
- Highway Design Technician
- Mechanical Designer

Heating, Ventilation, Air Conditioning & Refrigeration Technology

Milford

4 Terms + 1 Summer Term | A.A.S., DI

Program Description:

With the high demand for well-trained HVAC technicians nationwide, become the go-to expert in solving heating and cooling issues. Professionals in the HVAC/R industry design, build, install, service, maintain, troubleshoot and repair heating and cooling systems year-round. Students may focus on the installation and maintenance of residential, commercial or industrial heating or ventilation, air conditioning, hydronic heating systems or refrigeration equipment.

Graduate Careers:

- Apprentice Steamfitter
- Apprentice Technician
- HVAC Technician
- Installer
- Service Technician

Construction

Learn the ins and outs of constructing, engineering, heating and cooling, plumbing, designing and surveying properties.

Land Surveying/GIS/Civil Engineering Technology

Milford

4 Terms | A.A.S.

Program Description:

SCC has the only land surveying program in Nebraska, and its hands-on coursework will prepare you to become a land surveying technician, civil CAD drafter or construction materials inspector. Technicians survey the construction of streets, dams, bridges, highways, airports and parks, as well as survey boundary locations of sub-divisions and private and commercial property. You'll learn GPS and GIS technology.

Graduate Careers:

- Survey Assistant
- Survey Technician
- Surveyor

Plumbing, Heating, & Air Conditioning

Milford

2-4 Terms | A.A.S., DI

Program Description:

As a plumber, you will work in both commercial and residential settings to repair, install and maintain plumbing fixtures and systems for drainage, heating, drinking, venting and sewage. A large part of the job involves the ability to work with building blueprints to assess layouts of plumbing systems and the water supply. In the v degree program, you will gain a basic understanding of the components and operation of heating and cooling equipment as well as some maintenance and troubleshooting.

Graduate Careers:

- Apprentice Plumber
- Installation of plumbing & heating systems
- Installation/maintenance of plumbing, heating & piping systems
- Plumbing Technician
- Self-employment

Technical Skills Instructor

Lincoln & Milford

4 Terms | A.O.S.

Program Description:

Those wishing to teach future generations of high school students are a fit for the Technical Skills Instructor program. It's designed specifically for those who want to combine industry training with skills and technical science courses to earn a degree in occupational studies. Each focus can be tailored to meet those needs. Students who complete this program can transfer to the University of Nebraska-Lincoln to complete requirements for a secondary teaching endorsement.

Focus Areas:

- Architecture & Construction
- Science, Technology, Engineering & Mathematics (STEM)
- Transportation, Distribution, & Logistics
- Manufacturing

Graduate Careers:

- Industrial Technology Teacher
- Secondary Engineering & Technology Teacher
- Skilled & Technical Sciences/Ag Teacher

Adult & Juvenile Services & Corrections

Lincoln - Education Square

100% Online Available | 4 Terms | A.A.S.

Program Description:

Start your career in corrections at SCC. Learn what it takes to work in community-based correctional services, institutional corrections, secure mental health facilities and juvenile justice agencies. This program teaches you the skills and expertise to work with a wide variety of clients in a community-based corrections setting and inmates in an institutional setting.

Graduate Careers:

- Assistant Probation Officer
- Child Protection Officer
- Compliance Officer
- Corrections Officer
- Drug Court Technician
- Inmate Classification Officer

- Dietary Manager

Electrician Construction, IBEW

Milford

1-4 Terms | A.A.S., CE

Program Description:

We have partnered with the Lincoln Electrical Joint Apprenticeship and Training Committee to offer you the chance to earn while you learn in our Construction Electrician program. This partnership is a registered apprenticeship program through the Department of Labor.

This a five-year program which requires 900 hours of classroom instruction and at least 8000 hours of on-the-job training. The curriculum will be delivered over a five-year period and includes classroom/lab courses along with on-the-job training co-op courses. Classes will take place at the IBEW Local #265 Training Center at 1415 Old Farm Road in Lincoln. Your on-the-job training will take place at job sites located within the IBEW Local #265.

Graduate Careers:

- Journeyman Electrician
- Foreman
- Superintendent
- Estimator
- Owner

Electronic Systems Technology

Lincoln

1-4 Terms | A.A.S., CE

Program Description:

Prepare yourself for an array of career opportunities, including industrial and personal networking, robotics, automation systems, avionics, biomedical, communications and many other commercial electronic systems and non-commercial personal systems. Approximately half of the training will take place in a laboratory setting where students will apply the classroom theory. A degree in Electronic Systems Technology can open a variety of exciting, steady and lifelong career opportunities with great salaries and benefits! Become part of this excellent career field that everyone depends on every day.

Awards Offered:

- AVD & Low Voltage
- Electronic Systems Technician

Graduate Careers:

- Application Specialist
- Assembly Electronic Technician
- Avionics Bench Technician
- Electrical Maintenance
- Electronic Technician
- Field Technician
- General Manager
- Install Technician
- Instrument & Control Technician

Electrical & Electromechanical Technology

Milford

1-4 Terms | A.A.S., CE

Program Description:

Start your career as a skilled electrician. Understand how to work in residential, commercial and industrial construction while learning about robotics, programmable controllers and automated systems. If you're interested in repairing machinery, hydraulics, welding and fabrication along with the fundamentals for electrical design, installation and equipment maintenance, the Electromechanical Systems focus is for you.

We emphasize hands-on learning so you can practice what you learn in the classroom and develop critical thinking. Expect to spend about half of your time in lab settings.

Awards Offered:

- Electrical Technician (A.A.S. and CE)
- Electromechanical Industrial Maintenance (A.A.S and CE)
- Automation & Robotics (Lincoln & Milford)

Graduate Careers:

- Apprentice Electrician
- Electrical Controls Technician
- Electromechanical Technician
- Electronics Technician
- Installation Technician
- Maintenance Mechanic
- Maintenance Technician
- Service Technician
- Shop Fabrication
- Substation Technician
- Utility Maintenance

Energy Generation Operations

Milford

1- 4 Terms + 1 Summer Term | A.A.S., DI, CE

Program Description:

Prepare for a future in one of the most rewarding careers in the world. The increased need for plant operators – who control the production of electricity, fluid fuels, water and other types of critical systems – makes this the right time to study for a career in energy and plant operations. At SCC, you can learn about the different processes for generating power with real-world training in our state-of-the-art control room simulator. When you graduate, you'll be qualified to become an operator or technician in a generating plant, bio-fuels production, wind farm or other energy production operation, along with a wide range of process operating facilities including fertilizer manufacturing, water and wastewater treatment and critical materials production.

Graduate Careers:

- Operations Crew Leader
- Operations Helper
- Operator
- Power Plant Operator
- Sub Transmission & Distribution Operator
- Technician

Manufacturing Engineering Technology

Milford

4 Terms | A.A.S.

Program Description:

Do you like to make things? Do you like to make things better, faster and less expensive? This program allows you to be hands-on and still be a part of the design process. You will graduate with the necessary skills to work in a variety of manufacturing jobs, including designing, drafting, quality assurance, purchasing and/or sales, and become a valued member of an engineering team.

Graduate Careers:

- Product Designer
- Robot Programmer
- Engineering Technician
- Automation Engineer
- Facilities Layout Management

Nondestructive Testing Technology

Milford

4 Terms | A.A.S.

Program Description:

Prepare to be in an exciting and fast-paced career which provides opportunities in a variety of industries which include aerospace, petrochemical, oil and gas, transportation, buildings and bridges and power generation. NDT uses various inspection techniques designed to determine integrity without causing damage or destroying the material. Students will develop essential skills in the areas of visual inspection, liquid penetrant, magnetic particle, ultrasonics, radiography and eddy current testing techniques. In addition, graduates will learn advanced inspection methods involving the application of phased array ultrasound, multi-frequency eddy current, along with computed and digital radiography methods. These skills are in high demand and will position you to have several job opportunities and attractive starting wages.

Graduate Careers:

- Advanced Services Technician
- Assistant Technician
- NDT Researcher & Developer
- NDT Inspector
- NDT Technician
- Radiographer Assistant
- Radiography Technician

Precision Machining & Automation Technology

Milford

1-4 Terms | A.A.S., DI, CE

Program Description:

Get ready for an exciting, fast-paced career in manufacturing and become one of SCC's highly sought-after Precision Machining graduates. Specialize in tool making, mold making, CNC machining and manufacturing automation in our 15,000-square-foot Eicher Technical Center in Milford, one of the largest precision-machining training facilities. You'll have detailed instruction and access to use state-of-the-art, high-end CNC equipment such as VMC and CNC lathes with live tooling and EDM technology with both wire and sinker. Haas, Okuma, Charmilles and Makino are just some of the manufacturers that are represented. You'll also learn to program and design components and assemblies through computer software like MasterCAM, SolidWorks and AutoCAD. Throughout your studies, you'll also design and build various projects relevant to the mold, die, and automated-equipment industry, too.

Awards Offered:

- Precision Machining & Automation General Machinist (CE)
- Precision Machining & Automation Technology (DI)
- Precision Machining & Automation Technology, Advanced CNC & Automation (A.A.S.)
- Precision Machining & Automation Technology, Tool Maker and Die (A.A.S.)

Graduate Careers:

- Automated Machine Builder
- CNC Programmer
- CNC Set-Up & Operator
- Die & Mold Designer & Builder
- Quality Control Technician
- Tooling Designer & Builder
- Traditional Job Shop Tool Maker

Welding Technology

Lincoln

1-4 Terms | A.A.S., DI, CE

Program Description:

Are you detail oriented? Do you possess manual dexterity and physical strength? Do you have the ability to spot changes in how hot metal flows? If you answered yes, then this program is for you.

You'll receive classroom instruction and extensive hands-on training about current welding practices and procedures, metallurgy, destructive and nondestructive testing, inspection and the principles of fabrication and design. The program meets the American Welding Society, American Petroleum Institute and American Society of Mechanical Engineers standards. Some of the welding processes utilized are shielded metal arc, gas metal arc, gas tungsten arc, flux cored arc and submerged arc welding. Cutting processes include oxyfuel and plasma arc.

Graduate Careers:

- Fabricator
- Heavy Equipment Mechanic
- Ironworker
- Millwright
- Pipe Welder/Fitter
- Production Welder
- Rail Industry Welder
- Welder

Associate of Health Sciences Beatrice, Lincoln & Milford

4 Terms | A.S.

Program Description:

The Associate of Health Sciences degree allows students to earn an Associate of Sciences degree that has a wide applicability to healthcare fields and prepares students for a number of educational opportunities beyond that degree. This degree may apply toward a specific health profession program at SCC or transfer toward a health-related program at another college or university. The Associate of Science in Health Sciences supports degree work that can be accomplished during the time a student may be waiting for admission to a specific program.

Dental Assisting Lincoln

2-4 Terms + 1 Summer Term | A.A.S., DI

Program Description:

Make someone smile! Dental assistants interact with patients and assist dentists in providing quality dental care. Dental assistants may also expose and process dental X-rays, prepare and sterilize instruments and equipment, take impressions of patients' teeth, polish (coronal) teeth, assist the dentist with various procedures, communicate with other healthcare professionals and manage some office tasks. Dental assistants are classified as licensed professionals in the state of Nebraska.

Graduate Careers:

- Certified Dental Assistant
- Dental/Orthodontic Assistant
- Licensed Dental Assistant
- Orthodontic Assistant
- Surgical Assistant

Healthcare Management Lincoln

Some Online Courses** | 4 Terms | A.S.

Program Description:

Our Healthcare Management program is designed for you if you are a healthcare professional and want to further your career in a supervisory position. We will teach you how to build teams, supervise effectively, and understand planning and the decision-making process. You will take courses in human resources, finance and information management, strategic planning, quality growth and control. This program includes a healthcare management practicum which allows you to demonstrate what you have learned. Once you graduate, you will have the option of transferring to a four-year college to pursue a degree in Healthcare Management or Leadership, or seek employment.

Healthcare Services Beatrice, Lincoln, Milford & SCC Learning Centers

Some Online Courses** | 1 Term | CE

Program Description:

Careers in both healthcare support and technical jobs are expected to be the two fastest-growing groups during 2014–24. The Healthcare Services certificate provides you with entry-level, flexible skills to work in hospitals, medical facilities and physicians' offices.

We provide coursework and training for this certificate through the healthcare programs on campus, in the Continuing Education Division, dual-credit health pathways offered through The Career Academy and Southeast Nebraska Career Academy Partnership (SENCAP) and through our six Learning Centers in our 15-county service area.

Graduate Careers:

- EKG Tech
- Phlebotomist
- CNA
- Medication Aide
- EMT
- Personal Care Aide
- Nutrition Aide
- Sterile Processing Tech
- Physical Therapy Aide

Medical Assisting Lincoln

3 Terms Minimum | DI

Program Description:

Medical assistants perform clinical duties such as vital signs, laboratory tests and electrocardiograms. They draw blood, prepare and administer medication and assist the physician. They may also schedule appointments, billing, coding and handling insurance. Graduates work in a variety of physician offices: family practice, cardiology, dermatology, endocrinology, obstetrics and gynecology, ophthalmology, pediatrics, and urgent care clinics.

Graduate Careers:

- Certified Medical Assistant
- Optometry Technician
- Orthodontic Assistant

Medical Laboratory Technology Lincoln

4 Terms + 2 Summer Terms | A.A.S.

Program Description:

Medical laboratory technicians are highly sought after! They work in all areas of the clinical laboratory, including blood banking, chemistry, hematology, immunology and microbiology. MLTs use high-tech instrumentation and microscopes to aid physicians in the diagnosis and treatment of disease.

Graduate Careers:

- Medical Laboratory Technician

Nursing Associate Degree Nursing Beatrice & Lincoln

3 Terms + 1 Summer Term | A.A.S.

Program Description:

The Associate Degree Nursing (ADN) program will prepare students for entry-level practice as a nurse. Upon successful completion of the program, you will be able to sit for the National Council Licensure Examination for Registered Nurses (NCLEX-RN). After successful completion of this exam, you will be a registered nurse and can work in a variety of healthcare settings, including hospitals, outpatient surgery centers, rehabilitation centers, physicians' offices and urgent care clinics, long-term care and home healthcare agencies, among other areas. Our intensive curriculum prepares learners to excel in nursing core courses and to practice with competence, confidence and compassion.

Awards Offered:

- Advanced Associate Degree Nursing (LPN to ADN)

Graduate Careers:

- Registered Nurse (RN)
- RN, Acute Rehab
- RN, Burn Unit
- RN, Cardiac Intermediate, Perioperative or Nurse
- RN, Charge Nurse
- RN, Coordinator
- RN, Float
- RN, ICU

Practical Nursing Beatrice, Lincoln, Milford & Falls City

Some Online Courses** | 2 Terms | DI

Program Description:

This program will teach you the concepts, principles and skills needed to become a practical nurse who can work with patients throughout their lifespan. LPNs report directly to a registered nurse or physician and perform many procedures, including monitoring vital signs, administering medication, documentation and supervising unlicensed personnel.

Graduate Careers:

- Long-term Care
- Rehabilitation
- Clinics
- Pediatric Clinics
- Acute Care
- Home Health

**Program offers web-based courses but requires supervised clinicals/practicums/labs at identified locations.

***This is an advanced certificate for those who already have an A.A.S. in Surgical Technology.

Paramedic

Lincoln

Some Online Courses** | 2 Terms + 1 Summer Term | A.A.S.

Program Description:

Paramedics provide medical care by preventing or reducing mortality and morbidity due to illness and injury. As a patient advocate, paramedics seek to be proactive in affecting long-term healthcare by working in conjunction with other providers. Traditional roles are in pre-hospital medicine with ambulance services, fire departments and flight programs, as well as within hospital critical-access care areas.

Graduate Careers:

- Emergency Medical Technician
- Paramedic
- Firefighter
- Critical Care Paramedic

Pharmacy Technician

Lincoln

Some Online Courses** | 2 Terms | DI

Program Description:

Learn what it takes to be successful in a variety of pharmacy settings, including working with customers, filling prescriptions, handling medications, ordering processes, inventory control and completing insurance claims. Pharmacy technicians work alongside licensed pharmacists from hospitals to pharmacies. Your instructors are certified pharmacy technicians and pharmacists who will prepare you to take the national certification exam upon graduation.

Graduate Careers:

- Pharmacy Technician

Physical Therapist Assistant

Lincoln

3 Terms + 1 Summer Term | A.A.S.

Program Description:

As a physical therapist assistant, you will work under the direction of a physical therapist to help patients of all ages recover from medical problems and other health-related conditions limiting their ability to move. Students will learn about the common diseases and conditions affecting movement, helping patients with therapeutic exercise, gait and mobility training, balance, physical agents and neurological rehabilitation. Graduates are prepared to take the national licensure examination and start a career of helping patients regain their function and live better, happier lives.

Graduate Careers:

- Physical Therapist Assistant
- Traveling PTA

Polysomnographic Technology

Online

100% Online Available** | 2 Terms + 1 Summer Term | CE

Program Description:

Polysomnographic technologists are allied health professionals who work under the supervision of a licensed sleep physician to assist in the education, evaluation, treatment and chronic care management of patients with sleep disorders. Sleep technologists are experts at fitting, titrating and troubleshooting PAP devices. Sleep technologists obtain certification through board examination to acquire the credential of Registered Polysomnographic Technologist.

Graduate Careers:

- Polysomnographic Technician

Radiologic Technology

Lincoln

Some Online Courses** | 4 Terms | A.A.S.

Program Description:

As a radiologic technologist, you'll work with patients performing radiology exams at hospitals, clinics, outpatient imaging centers and/or doctor's offices to complete MRIs, X-rays, and CAT scans. Learn the safe use of radiation to produce digitally processed images. Students will learn proper positioning and imaging for diagnostic purposes as well as the skills required to operate within the ethical, professional and legal boundaries of the profession. Completing the program prepares you to take the American Registry of Radiologic Technologist Exam and apply for state licensure where you choose to work.

Graduate Careers:

- Cardiac Catheterization Scrub Tech
- Cat Scan Technologist
- MRI Technologist
- Radiologic Technologist
- Interventional Radiology
- Mammographer
- Radiographer
- X-ray Tech

Respiratory Care

Lincoln

Some Online Courses** | 4 Terms + 1 Summer Term | A.A.S.

Program Description:

The field of respiratory care has a promising future, and SCC is here to make you a part of it. Our program prepares students to become practitioners who evaluate, treat and care for patients with breathing or other cardiopulmonary disorders. As a respiratory therapist, you'll learn to follow specific, well-defined respiratory care procedures under the direction of physicians.

Surgical First Assist

Online

100% Online** | 1 Term + 1 Summer Term | CE

Program Description:

As defined by the American College of Surgeons, the surgical first assistant provides aid in exposure, hemostasis and other technical functions that will help the surgeon carry out a safe operation with optimal results for the patient. Their role will vary considerably with the surgical operation, specialty areas and type of facility. Employment of surgical first assistants is projected to grow 31.2% through 2027, which is much faster than the average for all occupations according to the Bureau of Labor Statistics. Their main role is to work in the operating room of a hospital, surgery center, specialty center, doctor's office or labor and delivery.

Graduate Careers:

- Traveling Surgical First Assistant
- Private Certified Surgical First Assistant
- Certified Surgical First Assistant

Surgical Technology

Lincoln

Some Online Courses** | 2 Terms + 1 Summer Term | A.A.S.

Program Description:

Become a surgical technologist to be a part of a team that assists in improving and saving the lives of patients daily. In this exciting, fast paced career you will assist surgeons by utilizing cutting edge technology daily and implement your knowledge of sterile technique to protect your patient from infection. At the completion of the program, you will take your National Certification (CST) Exam opening the door to endless opportunities nationwide after graduation.

Graduate Careers:

- Certified Surgical Technologist
- Surgical Technologist
- Sterile Processing Technician
- Surgical Supply Technician

Auto Collision Repair Technology

Milford

1-4 Terms | A.A.S.

Program Description:

Become a part of a viable industry that takes pride in how to repair a vehicle to pre-collision condition. Get training and experience in the collision-repair industry, including estimating, metal repair, welding, refinishing, structural repair and detailing. You'll have the opportunity to work on real-world, customer-owned projects in a live lab setting with six modern paint booths. The program offers Platinum Class certification through I-Car (Inter-Industry Conference on Auto Collision Repair). Tools are required.

Graduate Careers:

- Auto Body Technician
- Collision Technician
- Disassembly Technician
- Estimator Assistant
- Paint Specialist

John Deere Tech

Milford

4 Terms + 1 Summer Term | A.A.S.

Program Description:

This partnership program between John Deere, John Deere dealerships and SCC trains you to become a technician for a John Deere dealership. Courses include fundamentals and safety, electrical and electronics, hydraulics, powertrains, engines, fuel systems, harvesting equipment, seeding equipment, AMS, HVAC and a Cooperative experience. Students in the program are required to have a sponsoring John Deere dealer and students are expected to continue employment at the dealership after graduation.

Graduate Careers:

- Agricultural Equipment Technician at a John Deere agricultural dealership
- Agricultural Management Solutions (AMS, GPS) at a John Deere dealership

Automotive Technology

Lincoln & Milford

4 Terms | A.A.S., DI, CE

Program Description:

Learn how to service and repair vehicles in this highly skilled profession. With computers controlling 80-90% of vehicle systems, technicians must understand how increasingly complex vehicles work, know how to identify problems, operate sophisticated diagnostic equipment and remember proper repair procedures. The program covers diagnostic and repair of all areas of the vehicle, including all aspects of engine repair, transmissions, suspension systems, brakes, electrical/electronics, heating and air conditioning and drivability.

Awards Offered:

- Automotive Technology & Light Repair Certificate

Graduate Careers:

- Automotive Technician
- Certified Technician
- Customer Service Advisor
- Lube/Tire Technician
- Maintenance/Lube Technician
- Mechanic
- Shop Assistant

Diesel-Ag Equipment Service Tech

Milford

4 Terms + 1 Summer Term | A.A.S.

Program Description:

Careers in the agricultural equipment service industries offer a variety of challenging and rewarding opportunities. Get the education and real-life training you need for a career as an ag equipment diesel technician. You can specialize in electrical/electronic systems, precision farming, HVAC, harvesting, planting, hydraulics, powertrains and engine/fuel systems. Many people choose to be masters of all agricultural equipment systems to personally handle any customer concern. You'll receive comprehensive training in all ag equipment systems during the program.

This course of study utilizes industry-sponsored equipment, tools and resources that are typical of modern dealership service requirements. There are tremendous employment opportunities available now, including jobs at dealerships, independent shops, and farming operations and will continue to be in the future.

Graduate Careers:

- Diesel Technician
- Heavy Equipment Tech
- Service Technician
- Supervisor
- Farm Hand/Technician

John Deere Construction & Forestry Equipment Tech

Milford

4 Terms | A.A.S.

Program Description:

Learn how to service engines, power trains, hydraulic, electrical, and electronic systems as well as diagnose and repair air conditioning problems for Deere construction & forestry equipment. This program is offered through a joint cooperation between SCC, John Deere and Deere Construction and Forestry Equipment dealers. Students must secure a Deere Construction and Forestry Equipment dealership sponsor for off-campus training.

Graduate Careers:

- Construction Equipment Technician at a John Deere Construction & Forestry equipment dealership

Diesel Technology-Truck

Milford

4 Terms + 1 Summer Term | A.A.S.

Program Description:

Careers in diesel trucking industries offer a variety of challenging-but-rewarding opportunities. Choose your specialty—electrical/electronic systems, powertrains, suspension, braking, hydraulics systems or engine/fuel systems—or become a master of all truck systems to personally handle any customer concern. Diesel engines are used in machines that affect every part of our lives, including all types of industrial applications as well as many personal vehicles.

In the Diesel Technology-Truck program, you will be trained in all phases of medium and heavy over-the-road truck repair. There are tremendous employment opportunities available now, and this trend won't be slowing down anytime soon.

Graduate Careers:

- Diesel Truck Technician
- Truck/Trailer Technician

Transportation

Be the spark that makes things go — from auto-collision repair to John Deere maintenance to professional truck driving.

Ford Automotive Student Service Educational Training Program

Milford

4 Terms | A.A.S.

Program Description:

Gain knowledge of the entire operation of a vehicle and receive advanced diagnostic training. Students combine lecture and lab experiences on campus, then spend additional time at a Ford or Lincoln dealership. The program is offered jointly by Ford Motor Company and SCC in cooperation with Ford and Lincoln dealers. Students must secure a Ford or Lincoln dealer to sponsor them during training.

Graduate Careers:

- Automotive Technician at a Ford dealership

Powersports Technology

Milford

2-4 Terms + Optional Summer Experience | A.A.S., DI

Program Description:

Start an exciting career repairing high-performance recreational, adventure-seeking, multi-terrain rugged machines! On top of learning advanced diagnostics and troubleshooting procedures, you'll explore how to fix engines, transmissions, suspension and steering, brakes, fuel systems, electrical/electronics and maintenance and rideability issues. You can choose to specialize in one type of vehicle or aspect, such as vehicles from a specific manufacturer. This program prepares you for a career working in independent repair shops, dealerships and specialty shops.

Graduate Careers:

- Detailer
- Mechanic
- Motorcycle Mechanic
- Sales Associate
- Technician

General Motors Automotive Service Educational Program

Milford

4 Terms + 1 Summer Term | A.A.S.

Program Description:

Study to start your career as an entry-level service technician in a General Motors (GM) dealership. The program is offered jointly by GM and SCC in cooperation with GM dealers. You will gain knowledge of the entire operation of the newest GM vehicles while earning factory GM training certifications. On-campus lab time is supplemented with co-operative education experiences in GM dealerships that is designed to smoothly transition to employment in the dealership after graduation. Students must secure a General Motors dealer to sponsor them during training.

Graduate Careers:

- Automotive Technician at a GM dealership

Professional Truck Driver Training

Milford

10 Weeks | CE

Program Description:

If you enjoy being on the road, why not get paid for it? There is a tremendous demand for skilled drivers all across the United States, and our Professional Truck Driver Training program prepares you for both intrastate and interstate commerce. This intensive truck driving course teaches you how to operate articulated vans and flatbeds. Test drive on city streets and rural roads, as well as two-lane and interstate highways. Graduates will obtain a Class A Commercial Driver's License.

Graduate Careers:

- Over-The-Road Truck Driver
- Owner/Operator
- Yard Driver

► Want more information?

We're committed to helping you find Your Path to Possible.

Enroll at SCC in three simple steps:

Complete an Application for Admission at southeast.edu/applynow or any SCC campus or Learning Center. There is no cost to apply.

Submit your ACCUPLACER/ACT/Next-Generation ACCUPLACER/SAT scores or an official transcript showing that you've completed college coursework in English and/or mathematics.

-OR-

Take the Next-Generation ACCUPLACER test at one of our campuses or Learning Centers.* To schedule an appointment to take the assessment, call any of our campuses or Learning Centers.

Submit any additional documents and/or information required by your program of study. For information about special program requirements, contact the Admissions Office by emailing Admissions@southeast.edu or visit southeast.edu.

***Note:** You're welcome to take the Next-Generation test as part of your campus visit. Let us know when you schedule your tour, and we'll make it happen!

► **Like what you see? Check it out in person.**

We're great on paper *and* in person.

Book your visit at southeast.edu/visitSCC.
