Installing Software from the Symantec Software Portal

Some software is available to install on SCC computers with the Symantec Software Portal. If the software is listed in the portal, it is available to request for install:

1. Locate the Symantec Software Portal from Application Shortcuts (usually in the lowerright corner)

2. Locate the software you'd like to request on the page that opens up and click on it.

Installing Software from the Symantec Software Portal

3. Select Request Application

	Application Details					\times
	Zoom APPLICATION NAME					
		Name	Version	Vendor	Category	
		Zoom 4.6.20033 - English (United States)	4.6.20033	ZOOM	Desktop Application	
				<u>Close</u>	Request Application	
4.	Click OI	<				
	Appli	cation Request			×	

Zoom will be downloaded and installed on your device.	
<u>Cancel</u>	ок

5. A confirmation should appear at the top of the screen that the software will be installed.

Request status can be checked under the My Requests tab.
