

What is Respondus LockDown Browser?

Respondus LockDown Browser is a secure browser for taking quizzes and exams in Canvas. It prevents you from printing, copying, or accessing other applications and websites during a quiz. If a quiz requires LockDown, you will not be able to take the quiz with a standard web browser. LockDown should only be used for taking Canvas quizzes; it should not be used in other areas of Canvas.

If your instructor requires LockDown, you will be provided with that information and a link in Canvas. The link is specific to Southeast Community College.

Taking Quizzes

- Close all programs and windows.
- Open LockDown. It should open to the Canvas home page.
- Log into Canvas, if a login window appears.
- Navigate to the course.
- Click the quiz/exam link in the course.

LockDown Tips

- The font size can be changed.
 - Click the Information-Settings icon in the toolbar (the “i” button).
 - Click “Set Font Size” to choose a new size.
 - Click Apply.
- You will not be able to exit the exam once you start.
- You will need to finish and submit the exam before closing the browser window.
- You cannot minimize the browser window, print, or navigate to other web sites except those allowed by your instructor during the exam.
- All other applications are blocked.

Troubleshooting LockDown

- Make sure all programs are closed.
- If your computer freezes during an exam, try pressing the F5 button on your keyboard. If that doesn't work, restart your computer.
