

## FOREIGN HIGH SCHOOL, COLLEGE TRANSCRIPT, AND TRANSFER CREDIT EVALUATION

Southeast Community College (SCC) students may need to provide evaluations of foreign high school diplomas when requested as well as students who have completed college-level credits at a school outside of the United States may be able to apply some of those credits toward a credential at SCC.

SCC does not offer a transcript evaluation service. It is the responsibility of the student to have the transcript evaluated by an outside degree evaluation service. **The cost of the evaluation must be paid by the student.** A written equivalency report, sent to the Financial Aid Office from the degree evaluation service, must be provided to SCC before the student's eligibility for financial aid can be determined.

The written evaluation must include a letter grade (A, B, C, etc.) and the earned credit hours for each course. Course equivalencies based on terms such as "Pass" or "Satisfactory" are not acceptable.

The student may use the degree evaluation service of their choice. National Association of Credential Evaluation Services members are listed below that you can inquire about their evaluation service.
